**TO REGISTER:** [CLICK HERE](#)

For additional information, contact Kathy Marshalek at [kmarshalek@ECInnovates.com](mailto:kmarshalek@ECInnovates.com)

**COVID-19 protocols will be observed. Mask required.**

#### ***YOU ARE INVITED TO JOIN US FOR A TWO-PART SERIES***

This two-part series is intended to bring CEO, program managers, IT and cyber professionals and students up to speed on cybersecurity requirements. If you sell to the government, you will need to understand the new rules.

***Results of non-compliance or breach*** in a U.S. Government contract?

- Contract Termination
- Criminal Fraud – False Claims
- Breach of Contract Lawsuits

#### **Workshop #1 – Introduction to Cybersecurity and Becoming Cybersecurity Maturity Model Certificate “CMMC” Compliant October 6, 2021**

The first workshop will focus on the 15 basic cybersecurity framework when processing, storing, or transmitting U.S. Government contract information. The presentation defines the FAR 52.204-21 and National Institute of Standards and Technology “NIST” CMMC Level 1 controls. The decision-makers will understand what the investment of cybersecurity technology and services requires and why.

#### **Workshop #2 – CMMC Level 2 and 3 Practices October 13, 2021**

The second workshop will delve into NIST CMMC Level 2 and Level 3 practices. This workshop will be more technically specific about processes and next-level controls for practices related to DFARS 252.204-7012.

#### **Presenters:**

- Leena Palmer, LaScala Presenter
- Q&A LaScala Team

Presented by Leena Palmer, MLS University of Michigan, Program Manager with 15 years’ experience in DoD small business areas.

LaScala, a Registered Provider Organization for CMMC services. Since 2016, LaScala has provided NIST standard Managed IT Services and Managed Security Services grounded in the SP 800-171 for federal, DoD, or commercial clients.

# Managing Your China Business Remotely During Covid

How to BETTER Manage Your Suppliers, Customers, Distributors and Teams

Program: October 13, 2021

Hosted By: American Chamber of Commerce in Shanghai and Ohio International Trade Teams

**YOU ARE INVITED TO JOIN US for a virtual webinar.**

Whether you are exporting, importing or have operations in China you know that business has become *much more complicated* without the ability to travel and visit your partners.

**In a global health crisis, companies need to keep trade flowing.** Combined travel restrictions, supply chain disruptions, financial insecurities, transport shortages, and staffing problems have forced businesses to be creative in managing through volatility and uncertainty and be pro-active to secure their business.

This program will provide tips and best practices for safeguarding and leading your business during the disruption of the pandemic.

**The program will feature expert speakers from China and the US along with a panel of Ohio companies:**

Art Dicker, Director, R&P Lawyers, Shanghai, China will discuss:

**Legal Steps Companies Can Take to Control Risk**

- Designing smart contracts to reduce legal disputes
- Due diligence to stay current on your partners

Kimberly Kirkendall, CPA, President, International Resource Development, Inc. will present:

**Best Practices to Improve Reliable Cross Border Trade**

- How to ensure reliable trade & payments
- Improve checks & balances to reduce volatility, fraud, and theft – whether by partners or employees

**Panel Ohio Companies - Their Experiences & Suggestions:**

A variety of Ohio companies with trade and/or operations in China will share their experience and answer questions.

# Save Money on Your Energy Bills

A U.S. Department of Energy Sponsored Program

## INDUSTRIAL ASSESSMENT CENTER

University of Dayton

### FREE ENERGY AUDITS FOR INDUSTRIAL FACILITIES

THE UNIVERSITY OF DAYTON Industrial Assessment Center is one of 31 IACs funded by the U.S. Department of Energy to conduct FREE energy assessments for small- to mid-sized manufacturers.

#### ABOUT US

Since 1981, the UD-IAC has helped over 1030 manufacturers reduce energy costs and stay competitive by providing no-cost energy assessments.

As part of an assessment, a small team of faculty and graduate students trained in industrial energy efficiency will visit your facility for a single day and compile a customized report with recommendations for energy cost reduction.

Our energy assessments typically identify energy savings opportunities that cost-effectively reduce annual energy use by about 11 percent.

#### HOW TO QUALIFY

To qualify for a free assessment, your facility must have:

- SIC code between 2000-3999
- Annual energy bills between \$100,000-\$2,500,000

The U. S. Department of Energy (DOE) recently announced \$60 million in funding for its Industrial Assessment Centers (IACs) to improve manufacturing efficiency and reduce carbon footprints. This effort will support the journey to achieving net-zero emissions by 2050, a Biden administration goal.

Founded in 1976, there are currently 32 IACs within universities across the

United States, each with the goal of training students in order to address the growing shortage of energy-engineering professionals, while also providing free efficiency improvement recommendations to small and medium-sized manufacturers.

As the only IAC in the state of Ohio, the University of Dayton IAC will receive almost \$2 million of the grant funding, to continue to provide free energy assessments to small and mid-size manufacturers and train the next generation of energy-engineering professionals.

The University of Dayton (UD) IAC, established in 1981, has helped more than 1,000 manufacturers, who typically save an average of 10-15% of their total energy costs. The energy assessments are completed in a one-day visit from UD's IAC team, made up of faculty, staff and professionally trained students.

"We will examine your utility bills, facilities, equipment, manufacturing processes and waste streams," said Jun-Ki Choi, director of the UD Industrial Assessment Center and associate professor of mechanical and aerospace engineering. "Within six weeks an easy-to-read, confidential report will be delivered documenting current practices and recommending ways to save money. The report is an independent assessment of your facility needs and is not biased by the desire to generate sales or consulting opportunities." For questions about the FREE energy assessments email [udayton.iac@gmail.com](mailto:udayton.iac@gmail.com) or [ask your FastLane Growth Specialist](#).
